

# Information for Primary 2/3 Parents.

This sheet provides you with information about what your child will be learning this term, and shows next steps in their learning. We would encourage you to talk about this with your child, and where possible, assist them with learning at home.

## Maths & Numeracy

Primary 2/3 are working hard this term and we will be learning about number and money. The circles group will be working with notes and coins to the value of £5 and the Triangles group will be working with notes and coins to the value of £10. Pupils will pay for items and will also be exploring the link between coins e.g. two 10p make 20p. Throughout this term we will be using addition and subtraction when solving money problems, and we will develop a range of different mental strategies to help us. We will also be exploring the topic of sequences and patterns.

## Language & Literacy

Primary 2/3 are working very hard on their reading skills. Pupils will continue to bring home their reading book to share with you on a Monday having worked with it the previous week. We will be exploring texts carefully in order to answer more complex questions. In writing lessons, we will be learning how to create atmospheric settings in stories. Throughout any piece of writing, we will be focussing on the use of adjectives, connectives, full stops and capital letters. We will continue to develop our listening skills in the classroom so we can follow instructions carefully and accurately.

## Other Class Information

Our topic this term is Egypt and we are really enjoying it so far. We will be learning about the River Nile, Ancient Egyptians, pyramids and ancient traditions. We will be exploring this topic further through a range of Expressive Art activities such as art and drama and music with Mr McDowall and Mrs McGhee.

We will also be taking part in target setting activities each week. We will think carefully about what we need to work on to reach our personal goals.

We go to PE with Mrs Sutherland every week and we are learning lots of new skills in gymnastics. In RME, we will be exploring the theme for caring through Christianity and Islam. We will also be learning about Easter.

In HWB, we are learning about equality and the importance of treating everyone fairly and with respect. As you can see, Term 3 is very busy and full of exciting learning experiences.
